

GOZEL GREEN

SS21 COLLECTION - SPOTLIGHT

Gozel Green

SS21 Collection
"SportLight"

Gozel Green's latest collection is a symphony and an expression of how generations can infuse basic elements of their style into one. In addition to this fusion, you will find an interesting balance between cuts, dimensions and the use of colours as well as intrinsic perspectives from the eyes of the creative designers. It is a perfect harmony of structured balance and its positive effects on wellness of soul, body and spirit.

That balance is what we all seek after witnessing a pandemic that has changed the way we live our lives, engage and express our personal styles.

We are truly excited about this collection.
